Vadodara, Gujarat, India

PROFESSIONAL SUMMARY

AI Engineer with 2+ years of experience specializing in generative AI, machine learning, and full-stack development. Proven track record in developing innovative AI solutions using Python, TensorFlow, and modern web technologies. Certified in Oracle Cloud Infrastructure Generative AI, AWS Machine Learning, and Microsoft Foundry Fine-tuning. Passionate about leveraging cutting-edge AI technologies to solve complex real-world problems and drive business impact.

EDUCATION

Navrachana University <i>Bachelor of Technology in Computer Science</i>	Vadodara, Gujarat, India Jan 2020 – Jun 2024
---	---

EXPERIENCE

AI Engineer <i>NetWeb Software</i>	Jul 2025 – Present Vadodara, Gujarat, India
- Architected and deployed production-ready generative AI solutions leveraging large language models and fine-tuning techniques to enhance business workflows and customer experiences - Developed and optimized machine learning pipelines using TensorFlow and Python, improving model performance by implementing state-of-the-art algorithms and best practices - Collaborated with cross-functional teams to identify AI opportunities, design technical solutions, and deliver scalable AI products that drive measurable business outcomes - Implemented MLOps practices for model versioning, monitoring, and deployment using cloud platforms including AWS and Oracle Cloud Infrastructure	
Software Engineer <i>NetWeb Software</i>	Jul 2024 – Jul 2025 Vadodara, Gujarat, India
- Designed and developed full-stack applications using React JS, JavaScript, and Python, delivering high-quality user experiences and robust backend services - Integrated machine learning models into production applications, enabling intelligent features and data-driven decision-making capabilities - Optimized application performance and scalability through code refactoring, database optimization, and implementation of efficient algorithms - Participated in code reviews, sprint planning, and agile development processes to ensure code quality and timely project delivery	
Software Developer Intern <i>NetWeb Software</i>	Jan 2024 – Jun 2024 Vadodara, Gujarat, India
- Contributed to the development of web applications using modern frameworks and technologies, focusing on clean code and maintainable architecture - Collaborated with senior developers to implement new features, fix bugs, and improve existing codebases - Gained hands-on experience with version control systems, CI/CD pipelines, and collaborative development workflows	
Full Stack Developer <i>Asence Pharma Private Limited</i>	May 2023 – Jul 2023 Vadodara, Gujarat, India
- Developed and maintained Human Resource Management System (HRMS) using full-stack technologies including React JS and C# - Designed database schemas and implemented RESTful APIs to support employee management, attendance tracking, and payroll functionalities - Enhanced user interface components to improve usability and streamline HR workflows for the organization	
Student Placement Coordinator <i>Navrachana University</i>	Jun 2023 – May 2024 Vadodara, Gujarat, India
- Coordinated campus recruitment activities, connecting students with industry opportunities and facilitating placement processes - Organized technical workshops, mock interviews, and career development sessions to enhance student employability	

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C#, SQL

AI/ML Frameworks: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Keras

Generative AI: Large Language Models (LLMs), Fine-tuning, Prompt Engineering, RAG, Microsoft Foundry

Web Technologies: React JS, Node.js, HTML5, CSS3, RESTful APIs, JavaScript ES6+

Cloud Platforms: AWS (SageMaker, Lambda, S3), Oracle Cloud Infrastructure, Azure

Databases: MySQL, PostgreSQL, MongoDB, SQL Server

Tools & Technologies: Git, Docker, Jupyter, VS Code, Kaggle, Geospatial Analysis

Specialized Skills: Natural Language Processing, Data Science, Machine Learning Operations (MLOps), Responsible AI

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Fine-tune a Language Model with Microsoft Foundry

AWS Academy Graduate - Machine Learning for Natural Language Processing

AWS Academy Graduate - Machine Learning Foundations

Python Certification - HackerRank

Pandas Certification - HackerRank

SQL Gold Badge - HackerRank

Google - Introduction to Generative AI

Google - Introduction to Large Language Models

Google - Responsible AI

Kaggle - Geospatial Analysis Course

ACHIEVEMENTS & HIGHLIGHTS

- Active contributor to Kaggle community with expertise in data science competitions and geospatial analysis
- Gold Badge holder in SQL on HackerRank, demonstrating advanced database querying skills
- Completed comprehensive certifications in Generative AI from Oracle, Microsoft, AWS, and Google
- Successfully transitioned from Software Developer to AI Engineer, showcasing continuous learning and adaptability
- Proficient in both theoretical AI concepts and practical implementation of production-ready ML systems
